

WMS - Assessment of the Whistleblowing Management System (WMS)

Ask for a certification

We implement the certification at your company or at the premises required by you.

Charakteristika

We offer a Whistleblowing Management System (WMS) assessment to both private and public sector organisations.

A Whistleblower Management System has the following benefits for an organisation:

- Standardisation of whistleblowing processes,
- Ensuring protection of whistleblowers,
- Ensuring that complaints received are dealt with in a systematic and credible manner,
- Protecting the organisation - reducing the risk of infringement,
- Promoting ethical behaviour,
- Improving the culture and image of the organisation,
- Meeting legislative requirements.

The outcome of the assessment of the misconduct management system is a report that assesses the extent to which the organisation:

- applies the recommendations of ISO 37002 (Whistleblowing Management System - Guidelines); and
- takes into account the relevant provisions of Directive (EU) 2019/1937 of the European Parliament and of the Council.
